Normality

Source: 1st Conversations of Cala Figuera, Foundation Eduardo Bonnín Aguiló (FEBA).¹

The revised translation of this book describes *Days of reflection on the Founding Charism of the Cursillo held in "The Porciúncula" in Palma de Mallorca on the 50th Anniversary of the First Cursillo Weekend held in Cala Figuera in Santanyi, on the Island of Mallorca, Spain in August 1944.*

The following outline is on the 9th topic, *Normality*, presented by Antonio Punyed Recasens. There are 10 topics in the 1st Conversations of Cala Figuera revised translation. Cursillistas are encouraged to read this topic in its entirety at the [Cursillo Resource Center](http://www.natl-cursillo.org). This is a great resource for study in the School of Leaders.

- To specify the vicissitudes that you are finding on your journey, in the daily normality of your living. Reaffirming yourself in this normality serves to verify what really matters, that is, the conscious sense that man can give his life.
- The capacity of seeing the same old things with new eyes.
- There is a tendency of presenting the Christian view of life with a certain note of heroism, instead of with a note of normality and closeness.
- The ordinary thing is to see religion as a barrier behind which one can take refuge, or as a parking garage or as an armchair (something comfortable). What is normal is something different.
- Only the authentic person learns the difficult art of knowing how to see the wonder that contains the current, the level thing, the routine thing, and the same old thing.
- Love reveals that life is a gift that can be discovered and valued in each detail of life.
- What is relative and even what is secondary show, in a concrete circumstance, the degree of purpose and desire for transcendence in an unconscious and inexorable way.
- The lay person affects the world when exercising, from the concrete place in which he is, that which characterizes him as a person.
- Life is, neither more nor less than what we do and what happens to us. The important thing is to deepen one's understanding of our daily motives, of the normal and the ordinary things.
- When one goes towards what one wants to achieve and applies one's constant and honest effort, usually one will gradually feel serenity and joy as one goes acquiring it in the land of the natural, the normal and human thing.
